Contents of Volume 43

No. 1

D. Caird, F. Pillmann and R. Klinke (F.R.G.)
Responses of single cells in the cat inferior colliculus to binaural masking level difference signals 1

H. Spoendlin and A. Schrott (Austria)
Analysis of the human auditory nerve 25

D. Durham, E.W. Rubel and K.P. Steel (U.S.A., U.K.)
Cochlear ablation in *deafness* mutant mice: 2-deoxyglucose analysis suggests no spontaneous activity of cochlear origin 39

M. Guttenplan, O.H. Jenkins and J.C. Saunders (U.S.A.)
Structural changes in hair cells after incubation in tissue culture medium 47

I.J. Russell, G.P. Richardson and M. Kössl (U.K.)
The responses of cochlear hair cells to tonic displacements of the sensory hair bundle 55

K. Horner and Y. Cazals (France)
Distortion products in early stage experimental hydrops in the guinea pig 71

B.M. Ryals, B. Ten Eyck and E.W. Westbrook (U.S.A.)
Ganglion cell loss continues during hair cell regeneration 81

Announcement 91

Corrigenda 93

Nos. 2/3

D.I. Smith, J.H. Mills and R.A. Schmiedt (U.S.A.)
Frequency selectivity of the middle latency response 95

L. Carlisle, J. Aberdeen, A. Forge and G. Burnstock (U.K.)
Neural basis for regulation of cochlear blood flow: Peptidergic and adrenergic innervation of the spiral modiolar artery of the guinea pig 107

J.A. Crowther, J.M. Miller and P.R. Kileny (U.K., U.S.A.)
Effect of anesthesia on acoustically evoked middle latency response in guinea pigs 115

G.D. Housley, C.H. Norris and P.S. Guth (U.S.A.)
Cholinergically-induced changes in outward currents in hair cells isolated from the semicircular canal of the frog 121

M.A. Cheatham and P. Dallos (U.S.A.)
Two-tone interactions in inner hair cell receptor potentials: AC versus DC effects 135

C.M. Henley, III, M.H. Owings, B.B. Stagner, G.K. Martin and B.L. Lonsbury-Martin (U.S.A.)
Postnatal development of $2f_1 - f_2$ otoacoustic emissions in pigmented rat 141

K.M. Khan and D.G. Drescher (U.S.A.)
Proteins of the gelatinous layer of the trout saccular otolithic membrane 149

0378-5955/90/$03.50 © 1990 Elsevier Science Publishers B.V. (Biomedical Division)

H. Pratt, N. Bleich and K. Feingold (Israel)
Three-channel Lissajous' trajectories of auditory brainstem evoked potentials: Contribution of fast and slow components to planar segment formation 159

W.A. Cooper, Jr., J.R. Coleman and E.H. Newton (U.S.A.)
Auditory brainstem responses to tonal stimuli in young and aging rats 171

J.J. Eggermont (Canada)
Temporal modulation transfer functions for single neurons in the auditory midbrain of the leopard frog. Intensity and carrier-frequency dependence 181

J. Ylikoski, U. Pirvola, O. Närvänen and I. Virtanen (Finland)
Nonerythroid spectrin (fodrin) is a prominent component of the cochlear hair cells 199

S.S. Spicer, B.A. Schulte and J.C. Adams (U.S.A.)
Immunolocalization of Na^+,K^+-ATPase and carbonic anhydrase in the gerbil's vestibular system 205

G. Reuter and H.-P. Zenner (F.R.G.)
Active radial and transverse motile responses of outer hair cells in the organ of Corti 219

I.H.M. Van Stokkum (The Netherlands)
Modelling the response of auditory midbrain neurons in the grassfrog to temporally structured monoaural stimuli 231

L. Collet, D.T. Kemp, E. Veuillet, R. Duclaux, A. Moulin and A. Morgon (France, U.K.)
Effect of contralateral auditory stimuli on active cochlear micro-mechanical properties in human subjects 251

M. Hildesheimer, E. Makai, C. Muchnik and M. Rubinstein (Israel)
The influence of the efferent system on acoustic overstimulation 263

A.E. Hubbard and D.C. Mountain (U.S.A.)
Haircell forward and reverse transduction: Differential suppresion and enhancement 269
